Portfolio

SUMMARY

Creative problem-solver with a strong focus on UI/UX . Experienced in crafting intuitive user experiences and cohesive brand identities through thoughtful design thinking and storytelling. Skilled in Figma, Adobe Creative Suite, and strategic communication, with a passion for blending culture, technology, and design to create meaningful, human-centered solutions.

EXPERIENCE

BuildMyStore
Remote

UI/UX Lead
March 2025 - May 2025

- Conducted extensive UX research to identify key usability issues in the existing website and collaborated with the team to define clear redesign goals.
- Streamlined user journeys and refined information architecture to enhance clarity and conversion.
- Designed a sleek, minimal, and user-friendly interface that improved overall accessibility and brand perception.

Bazarghor
Remote

UI/UX Designer
September 2025 - February 2026

- Designed a grocery delivery app for small towns built on a no-inventory model, starting with user research, competitor and SWOT analysis, and defining target audiences.
- Conducted branding research and ideated initial logo concepts to establish a relatable and culturally resonant brand identity.
- Created detailed information architecture, user flows, and wireframes leading to polished high-fidelity prototypes, ready for developer handoff.

MentorMe
Remote

Branding Lead
May 2025 - July 2025

- Built a complete brand identity system from scratch, establishing cohesive guidelines for logo, typography, and color palette.
- Defined the brand's tone of voice and storytelling direction to ensure consistency across digital and print touchpoints.
- Designed social media templates, business cards, and merchandise assets to support long-term marketing and brand recognition.

PROJECT

Khwaab (UI/UX & Branding)
September 2025 - September 2025

Designathon Project

- Participated in a 4-day national designathon centered on branding and UI/UX innovation.
- Designed Khwaab, a dream journaling app enabling users to log, reflect, and visualize dreams through a calm, immersive interface.
- Built a cohesive brand identity including logo, color palette, and typography to reinforce the theme of mindfulness and emotional connection.
- Centered on creating an intuitive user experience with soft visuals, fluid navigation, and subtle microinteractions to enhance usability.

MythBursters (Global Game Jam Winner)
January 2025 - January 2025

Designathon Project – Global Game Jam

- Designed MythBursters, a board game created during a continuous 48-hour international game jam based on the theme “Bubbles”.
- Aimed at young girls in rural areas, the game helps break common myths around menstruation through engaging, educational gameplay.
- Received international recognition for innovation and social impact among global participants from multiple countries.
- Centered on inclusive design, collaborative storytelling, and culturally resonant visual language.

Furnico (Winner – Design Hackathon, NIT Patna & Des.Co)
November 2024 - November 2024

Hackathon Project

- Designed Furnico, a furniture shopping app integrating AR/VR features to visualize products within real environments.
- Developed an immersive showroom experience to simplify purchase decisions through spatial visualization.
- Prioritized intuitive UX flows, accessibility, and cohesive branding for a seamless digital shopping experience.
- Secured 1st place for innovation and practical implementation among competing design teams.

EDUCATION

High School - CBSE
Amanora School

Pune, India
Graduated: 2023

Bachelor of Design - Visual Communication
Karnavati University, Unitedworld Institute of Design (UID)

Gandhinagar, India
Expected Graduation: 2027

CERTIFICATIONS

Winner Global Game Jam 2025
